Projects

MyCart – Django-Based E-Commerce Web Application

- Built a full-stack e-commerce web application using Django, HTML, CSS, Bootstrap, and SQLite. Implemented features such as product listings, shopping cart management, order tracking, authentication, and CRUD operations. Integrated dynamic templates, backend database handling, and responsive UI components to enhance user experience.

ShwasIn – Portable Cough Detection and Monitoring Device

- Built a compact ESP32-based cough detection and monitoring device using sound and gas sensors. Integrated web applications to enable real-time monitoring, alerts, analytics, and tracking of cough patterns.

Certifications

- Python Full Stack Virtual Internship.
- Employability Skills Program Advance by Wadhwani Foundations.

Achievements & Extracurriculars

- Achieved 1st place in the National-Level Hackathon during the technical symposium organized by **TECH College, Tadipatri**.
